

task7

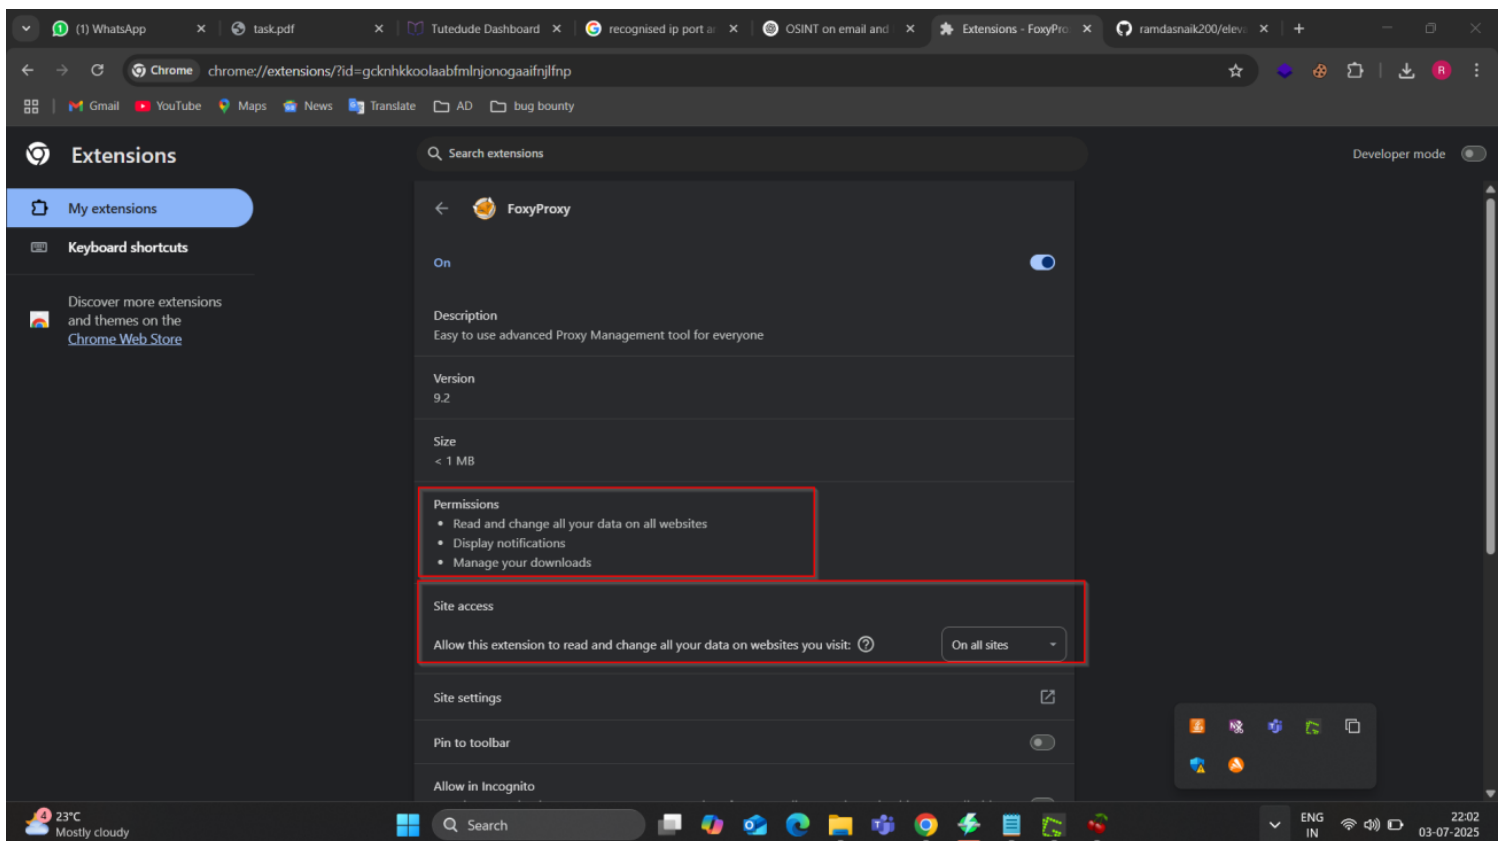

extension which are in my browser

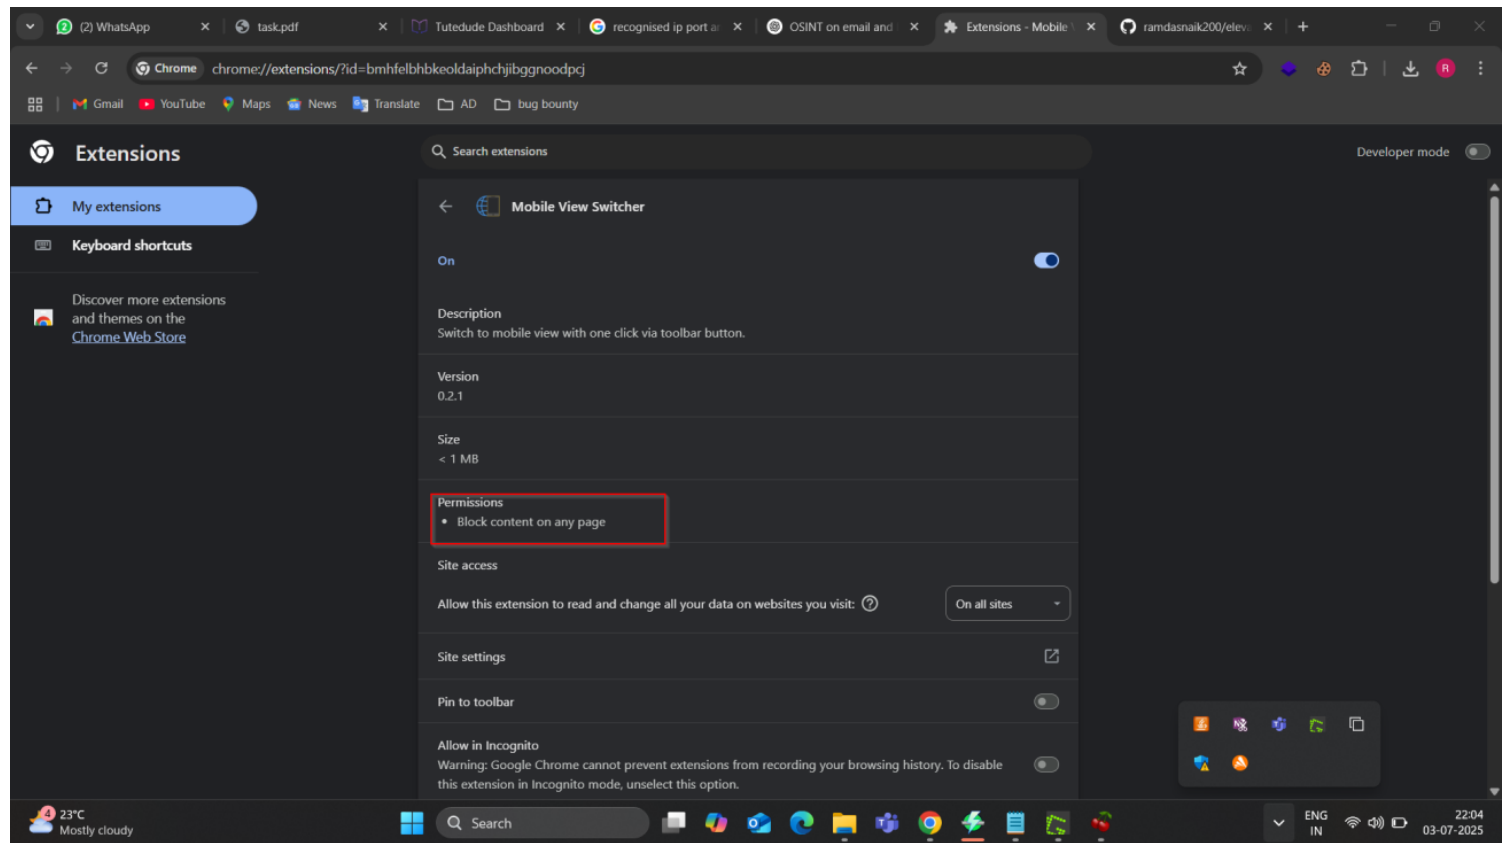

permission for cookie-editor

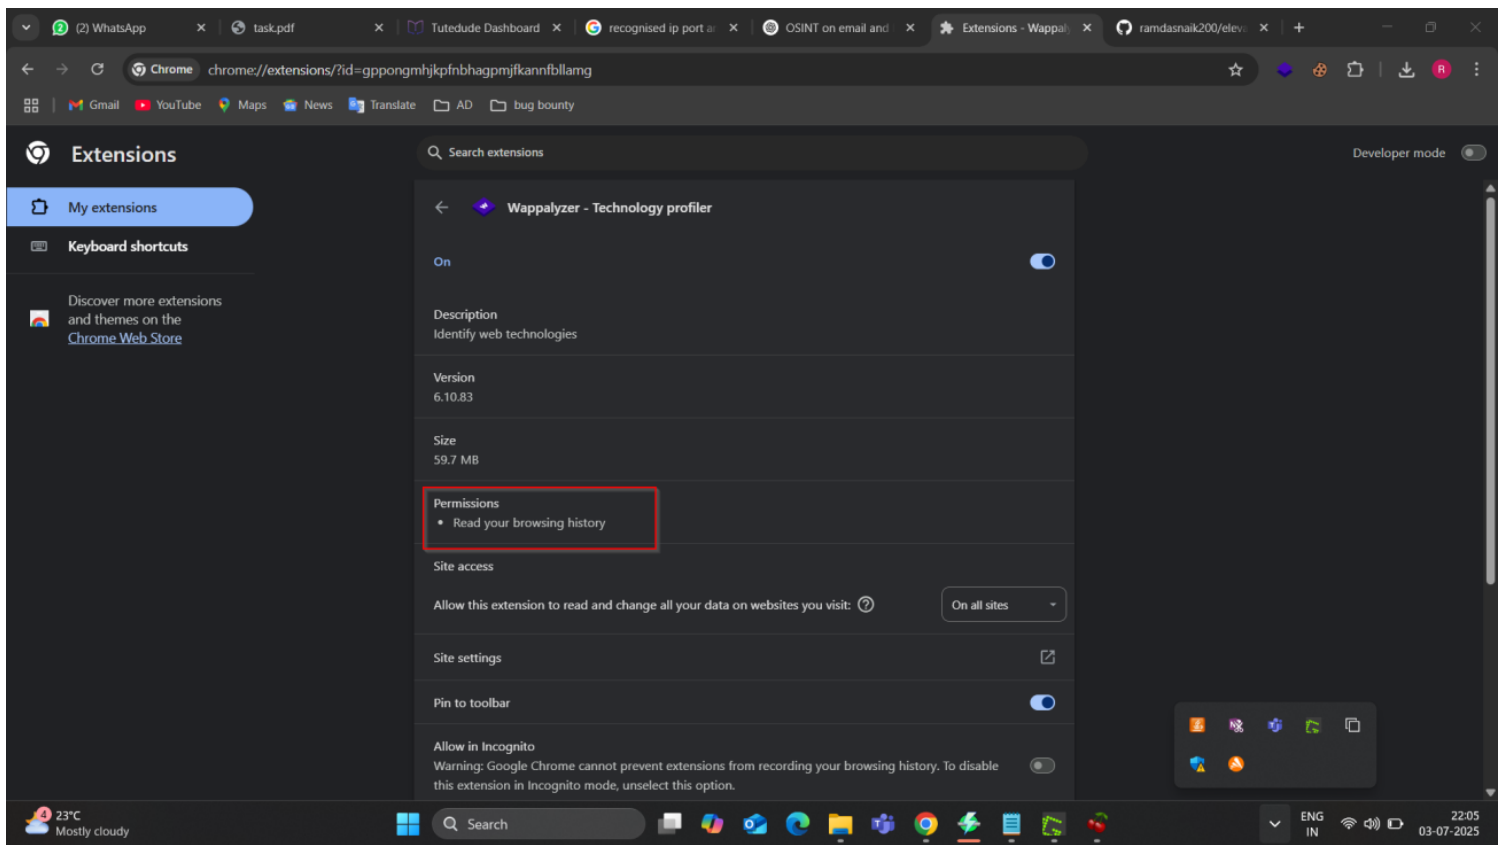

permission for foxyproxy

permission for mobile view switcher

permission for wappalyzer

Malicious extensions can:

- **Steal passwords** by logging keypresses.
- **Redirect you** to phishing or scam websites.
- **Inject ads** into websites (adware).
- **Monitor all browsing** activity.
- **Cryptojack** — mine cryptocurrency using your computer's power.
- **Steal cookies** or session tokens to hijack accounts
